

Visolvia in cooperation with NobleMedia.TV

Stockholm, Sweden, September 7, 2009 – Visolvia AB, a Swedish provider of AI-based optimization services, today announced its cooperation with NobleMedia.TV. Visolvia will deliver technology for e.g. optimization of media content for the new TV network about to launch in the Middle East.

“At Visolvia we are very pleased to enter into this cooperation which will demonstrate the benefits of our services not only within finance, but for marketing and media as well; applications very well suited for the type of technology that we are developing” says Anders Widgren, CEO and founder of Visolvia AB.

“We know the capabilities of Visolvia and we are very pleased to enter into this cooperation. Our viewers will soon have the opportunity to e.g. choose their specific requirements related to media contents & finance without spending a lot of time searching” says Muftah Benomran, Chairman and founder of Noble Media.
