

Visolvia in cooperation with Treetop Capital

Stockholm, Sweden, September 7, 2009 – Visolvia AB, a Swedish provider of asset management services, today announced its cooperation with Treetop Capital AB, a supplier of quantitative asset management tools and services.

“We are very pleased to enter this cooperation with a company that has such a deep understanding of the needs of the professional algorithmic traders. The offerings from our companies complement each other in a very positive way; together we will be able to provide our customers with a complete range of services and products related to algorithmic asset management.” said Anders Widgren, CEO and founder of Visolvia AB.

“At Treetop we are looking forward to a partnership that truly will generate a high degree of synergy for the customer. Our combined forces will generate a complete product that will satisfy both long-term and short term money managers need of quantitative trading models” says Treetop Capital AB founder and CEO Håkan Andersson and continues “The best winner of this partnerships is without the doubt the customer, who will see a new level of product and services available for their organizations”.
